

Designated parking space must for registration

Port Blair, June 23

It has been observed that the city roads, footpaths, pavements and way side amenities are often captured by unauthorized parking by both transport and non-transport vehicles. In order to decongested the city roads and to weed out the practice of road side parking of vehicles at night, the State Transport Authority in the meeting held recently has made it mandatory to submit designated parking space before registration of all vehicles including non-transport vehicles, a communication received from Secretary (STA) said here, today.
